OH, OH!

Money is unimportant here!!

Land of Cockayne (COCKAYNE). This is a modern artist's idea of that delightful paradise which was part of the folklore of Europeans many, many centuries ago.

This is the Land of Cockayne.

It's a wonderful place where the houses are built of cake, and the shops are eager to give you their merchandise for free.

Here, roast geese and other fowl wander about inviting folks to eat them. Here, buttered larks fall from the skies like manna.

Wonderful place Cockayne . . . this Land that's always free from want . . . where business cycles are unknown . . . where money is unnecessary.

Only trouble is you won't find this mythical place on any up-to-date map of the world.

We live in a land blessed with plenty—true enough. But the rub is that we will always need hard cash to buy the things we want.

You will need money to make a good down payment on a new home . . . to send the children to college when the time comes . . . or to keep well-supplied with fine food and little luxuries when it comes time to retire.

One of the best ways you can assure yourself that you *will* have the money you need for the things you want later in life is to *save* away some of the money you now earn in U. S. Savings Bonds.

These Bonds are the safest in the world. And they make money for you. Each \$75 you save today will grow to \$100 in just 10 years.

So start saving now . . . the automatic way, on the Payroll Savings Plan where you work, or buy them regularly through your bank or post office.
